13. Integrations
14. Legal Status — Sarl Incorporation
15. Security Configuration
16. Deployment
17. Changelog (v1.1 → v2.0)

1. Executive Summary

Swissperiences is a membership-based luxury travel platform for Switzerland operating a **dual business model**: curated alpine experiences for invite-only members, and short-term rental property management in Geneva. The platform is a fully custom Vite + React + TypeScript SPA (100% custom code) backed by Supabase PostgreSQL, Vercel serverless functions, Stripe payments, and Resend transactional emails.

Live at: swissperiences.ch — Domain registered through 2029 (Infomaniak)

2. Dual Business Model

2.1 Experience Curation (Primary)

Invite-only luxury travel platform offering curated alpine experiences across Switzerland. Members apply for access, receive approval, and book packages, standalone experiences, and sanctuary stays through a private dashboard. Revenue streams: package bookings, standalone experiences, retreat deposits, guest upsells (Airbnb), GetYourGuide affiliate commissions.

2.2 Property Management (New in v2.0)

Short-term rental management targeting Geneva properties. Commission-based model at 15-25% of rental revenue, operating within Switzerland's 90-night/year regulatory limit. Properties tracked in `admin_inventory` table.

Property	Location	Status	Mgmt Fee	Pillar
Villars Sky Loft	Villars-sur-Ollon	Active	30%	5/5
Verbier Sanctuary	Verbier	Scouting	35%	5/5
Zermatt Glass House	Zermatt	Scouting	35%	4/5

3. Technology Stack

Layer	Technology	Notes
Frontend	Vite 5 + React 18 + TypeScript 5.8	SPA, code-split via React.lazy
UI	shadcn/ui (Radix primitives)	Dark-mode-first design system
Styling	Tailwind CSS 3.4	Custom luxury design tokens

Layer	Technology	Notes
Fonts	Inter (body), Lora (headlines)	Google Fonts
Animation	Framer Motion 12	Page transitions
Routing	React Router v6	Lazy-loaded, bilingual (en/pt)
State	TanStack React Query 5	Server state caching
Forms	React Hook Form 7 + Zod 3	Schema-validated
SEO	react-helmet-async	Per-page meta tags
i18n	i18next + http-backend	EN/PT, URL-driven
Database	Supabase PostgreSQL	West EU region
Auth	Supabase Auth	Google OAuth + Email/Password
Edge Functions	Supabase (Deno)	7 functions deployed
API Routes	Vercel Serverless (Node.js)	5 endpoints + 1 helper
Payments	Stripe	Checkout Sessions (CHF/GBP)
Email	Resend	hello@swissperiences.ch
Rate Limiting	Upstash Redis	Per-IP throttling
Analytics	Plausible	GDPR-compliant, no cookies
Affiliates	GetYourGuide	Partner ID: XJZ4DP0
Hosting	Vercel (Hobby plan)	100 deploys/day

4. Website Structure & Routing

React Router v6 with dual-route pattern: every public page exists at both `/path` and `/:lang/path`. The `LanguageWrapper` component syncs URL `:lang` parameter with `i18next`.

4.1 Public Pages

Route	Page	Description
/	Index	Homepage — hero, sanctuary preview, quote form
/sanctuaries	Sanctuaries	Accommodation listings
/sanctuaries/villars	Villars Retreat	Flagship sanctuary at 1,300m
/packages	Packages	4 tiered packages (solo/couple/group)
/experiences	Experiences	4 standalone bookable experiences
/experiences/road-journey	Road Journey	Alps Road Journey (CHF 850)
/experiences/cinematic-memories	Cinematic	Drone filming + 4K reel (CHF 600)
/experiences/private-chef	Private Chef	In-chalet dining (CHF 400)
/experiences/guided-hikes	Guided Hikes	Alpine hikes (CHF 300)
/journals	Journals	Guest stories (3 published)
/journals/:slug	Journal Post	Individual guest narrative
/destinations	Destinations	10 Swiss destinations hub
/destinations/:slug	Destination	City page + GetYourGuide
/for-teams	For Teams	Corporate retreat inquiries
/partnerships	Partnerships	B2B partnerships
/about	About	Company story
/contact	Contact	Contact form
/sustainability	Sustainability	Environmental commitment
/request-access	Apply	Membership application form
/login	Login	Google OAuth + Email/Password

4.2 Protected Pages (AuthGuard)

Route	Page	Access
/members	Dashboard	Auth + active membership

Route	Page	Access
/members/book	Booking	Auth + active membership
/members/profile	Profile	Auth + active membership
/admin/gallery	Mission Control	Admin (requireAdmin)
/members/links	Link Generator	Admin
/ideas	Ideas Board	Admin
/todo	Task Mgmt	Admin

4.3 Special Pages

Route	Description
/auth/callback	OAuth redirect handler
/pending-approval	Post-application waiting page
/enhance	Airbnb guest upsell page
/invite/:code	Personalized invite links
/private/alex-proposal	Custom client proposal
/secure-deposit	Retreat deposit info

5. Packages & Pricing (March 2026)

5.1 Curated Packages

Package	Duration	Solo	Couple	Group	Season
The Alpine Reset	3 nights	CHF 1,200	CHF 1,800	CHF 2,400	Year-round
The Winter Escape	4 nights	CHF 1,600	CHF 2,500	CHF 3,200	Dec-Mar
The Cinematic Weekend	2 nights	CHF 950	CHF 1,500	CHF 2,000	Apr-Nov
The Grand Tour	5 nights	CHF 3,000	CHF 4,500	CHF 5,500	Year-round

Alpine Reset: Sanctuary Loft, guided hike, thermal spa, welcome aperitif, dining recs

Winter Escape: Loft, 2-day ski pass, thermal baths, fondue evening, Swiss wines

Cinematic Weekend: Loft, drone filming, half-day road journey, edited 4K reel

Grand Tour: Loft, 2-day road journey (3 cantons), 2 premium dinners, hike, drone, spa

5.2 Standalone Experiences

Experience	Price	Category
Alps Road Journey	CHF 850	Private guide + luxury SUV
Cinematic Memories	CHF 600	Drone + photography + 4K reel
Private Chef Evening	CHF 400	In-chalet dining (add-on)
Guided Alpine Hike	CHF 300	Certified guide

5.3 Guest Extras (Airbnb Upsell via /enhance)

Extra	Price
Early Check-in (10:00)	CHF 50
Late Check-out (14:00)	CHF 50
Station Transfer	CHF 80
Welcome Package	CHF 75

5.4 Retreats

The Spring Intake — May 12-19, 2026 (Villars-sur-Ollon)

Tier	Price
Signature Cohort	CHF 14,500
Basecamp	CHF 3,500
Deposit (refundable 60 days prior)	CHF 500

6. Destinations

10 destination pages, each with curated highlights, related experiences, GetYourGuide affiliate activities, and SEO metadata.

Destination	Altitude	Highlight
Geneva	375m	Gateway city, lakeside sophistication
Villars-sur-Ollon	1,300m	Home sanctuary, year-round alpine
Verbier	1,500m	World-class skiing, Sanctuary 02 (2027)
Zermatt	1,620m	Matterhorn, car-free, Sanctuary 03 (2028)
Interlaken	568m	Bernese Oberland gateway
Lauterbrunnen	795m	Valley of 72 waterfalls
Montreux	390m	Swiss Riviera, Jazz Festival
Lausanne	495m	Olympic capital, Lavaux gateway
Lucerne	436m	Medieval Chapel Bridge, Pilatus access
Grindelwald	1,034m	Eiger North Face, First cable car

7. Authentication Flow

7.1 Google OAuth (Primary)

User clicks "Login with Google" → Supabase redirects to Google consent screen → Google redirects to /auth/callback → onAuthStateChanged listener fires → Calls get_or_create_member() RPC → Routes by membership status:

Status	Redirect
active	/members
pending	/pending-approval
no_application	/request-access

7.2 Email/Password (Secondary)

User enters email + password on expandable form at /login → signInWithPassword() to Supabase Auth → Same get_or_create_member() RPC routing.

7.3 AuthGuard Component

Wraps all protected routes. Checks: (1) auth.getUser() — is user authenticated? (2) get_or_create_member() RPC — membership status? (3) is_admin() RPC — if requireAdmin flag, checks admin_emails table. Admin access is email-based whitelist.

8. Database Schema

Supabase PostgreSQL — 29 migrations applied. Key tables:

8.1 membership_applications

Column	Type	Notes
id	UUID PK	Auto-generated
full_name	TEXT NOT NULL	
email	TEXT UNIQUE	
city, country	TEXT	
reason	TEXT	Why they want to join
referral_source	TEXT	linkedin, friend, google, other

Column	Type	Notes
status	TEXT	pending / approved / rejected / waitlist
payment_status	TEXT	pending / paid / failed / refunded
stripe_session_id	TEXT	
deposit_amount	DECIMAL	

8.2 members

Column	Type	Notes
id	UUID PK	
auth_user_id	UUID FK	One-to-one with auth.users
full_name, email	TEXT	
membership_tier	TEXT	founding / standard / vip
membership_status	TEXT	active / paused / cancelled
total_bookings	INTEGER	
total_spent	DECIMAL(10,2)	

8.3 bookings

Column	Type	Notes
id	UUID PK	
member_id	UUID FK	References members(id)
sanctuary_id	TEXT	villars, verbier, zermatt
experience_type	TEXT	road_journey, guided_hike, etc.
check_in / check_out	DATE	
status	TEXT	inquiry / confirmed / cancelled / completed
estimated_price	NUMERIC	

8.4 Other Tables

Table	Purpose
waitlist	Pre-launch / newsletter subscribers with Stripe tracking
blocked_dates	Calendar availability (UNIQUE on type+item+date)
corporate_inquiries	B2B retreat leads (new/in-review/quoted/completed)

Table	Purpose
admin_emails	Admin user whitelist (email-based access control)
admin_inventory	Property/sanctuary mgmt with fee rates + pillar scores
admin_partners	Curation network with commission rates
admin_tasks	Internal task tracking
admin_concepts	Content ideas pipeline

8.5 RLS & RPC Functions

Anon users: INSERT into membership_applications, waitlist. Authenticated: view own member profile, manage own bookings. Admin (via is_admin() RPC): full CRUD on all tables. Key RPCs: get_or_create_member(), is_admin().

9. API Routes (Vercel Serverless)

9.1 POST /api/create-checkout-session

Creates Stripe Checkout Session for retreat deposits (CHF 500 / auto-detects GBP). Inputs: email (required), tier, intent, application_id, marketing_opt_in. Looks up waitlist entry, creates session, syncs to Resend audience.

9.2 POST /api/webhooks/stripe

Handles checkout.session.completed event. Verifies webhook signature, updates waitlist payment_status to "paid", sends confirmation email.

9.3 POST /api/send-inquiry-email

Corporate team retreat inquiry handler. Rate limited: 3 req / 10 min. Saves to corporate_inquiries, sends user confirmation + admin alert, syncs to Resend audience.

9.4 POST /api/send-guest-inquiry

Airbnb guest upsell from /enhance. Validates selections server-side (never trusts client totals). Server-side price catalog:

Item	Price	Category
Alps Road Journey	CHF 850	Experience
Guided Alpine Hike	CHF 300	Experience
Cinematic Memories	CHF 600	Experience
Private Chef Evening	CHF 400	Experience
Early Check-in	CHF 50	Extra
Late Check-out	CHF 50	Extra
Station Transfer	CHF 80	Extra
Welcome Package	CHF 75	Extra

9.5 POST /api/send-waitlist-email

Newsletter / waitlist signup. Rate limited: 5 req / 10 min. Supports EN/PT language. Graceful duplicate handling (returns 200). Sends welcome email + admin notification + Resend audience sync.

10. Edge Functions (Supabase / Deno)

Function	Trigger	Purpose
newsletter-signup	Direct call	Resend audience + welcome email
notify-application	DB trigger (INSERT)	Thank you + admin notification
send-approval-email	Admin action	Membership approval email
send-booking-confirmation	Admin action	Booking confirmation
booking-inquiry	Member action	Booking inquiry handler
create-checkout	Direct call	Stripe checkout (Deno alt)
stripe-webhook	Stripe event	Webhook handler (Deno alt)

11. Email System (Resend)

All emails from: **hello@swissperiences.ch**. Rate management: 1.1-second delays between sends (Resend 2 req/sec limit).

Trigger	Email	Recipient
New application	Thank you for applying	Applicant
New application	Admin notification	hello@swissperiences.ch
Approval	"You're in" + login CTA	Member
Newsletter signup	Welcome email	Subscriber
Deposit paid	Payment confirmation	Customer
Guest inquiry	Itemized breakdown	Guest
Guest inquiry	Admin alert	hello@swissperiences.ch
Corporate inquiry	Confirmation + admin	Both
Waitlist signup	Welcome (EN/PT)	Subscriber

12. Revenue Engine

Located in `src/lib/revenue-engine.ts`. Margin-preserving pricing formula:

$$\text{guestPrice} = \text{baseCost} / (1 - \text{marginRate})$$

Parameter	Default	Configurable
Property management fee	30%	Per-property (admin_inventory)
Experience curation markup	20%	Per-partner (admin_partners)

Example: Base cost CHF 100, 20% margin → Guest price = CHF 125, Commission = CHF 25

Helper functions: `calculateGuestPrice()`, `calculateCommission()`, `formatCurrency()`, `getRevenueBreakdown()`

13. Integrations

Service	Purpose	Config
Stripe	Deposits (CHF 500/GBP)	Vercel env vars
Resend	Transactional + newsletter	Vercel + Supabase env
Supabase	DB, Auth, Edge Functions	rhoxismvcalqppbnndew (West EU)
Upstash Redis	Per-IP rate limiting	REST URL + token
Plausible	Privacy-first analytics	Script in index.html
GetYourGuide	Affiliate (10 destinations)	Partner ID: XJZ4DP0
Google OAuth	Primary auth method	Supabase Auth provider
i18next	Bilingual (EN/PT)	/public/locales/{en,pt}/

14. Legal Status — Sarl Incorporation

INCORPORATION IN PROGRESS

Swissperiences Sarl is currently being incorporated in Geneva through **Startups.ch** (Order #1484402). Legal advisor: **Samy Benzaoui**, Titulaire du Brevet d'avocat, Directeur Suisse Romande.

14.1 LFAIE Issue (Resolved)

The original company purpose included real estate activities (purchase, sale, promotion of property). The Geneva commercial register requires a **LFAIE attestation** (Federal Act on the Acquisition of Real Estate by Persons Abroad) for any company with real estate activities. This attestation costs CHF 500 and requires all members to produce their last two tax declarations, proof of Geneva domicile, and notarized attestations.

14.2 Decision (March 4, 2026)

Pascal decided to **remove the real estate ownership/acquisition component** to avoid the LFAIE requirement. The revised company purpose focuses on:

- (1) Design, organization, marketing, and provision of tourism experiences in Switzerland;*
- (2) Concierge, travel consulting, intermediation, and matchmaking services in tourism and bespoke travel;*
- (3) Organization of stays, corporate retreats, and events;*
- (4) Community management and membership programs for tourism and hospitality.*

The company may also provide services related to the **administration, rental, intermediation, operation, and maintenance** of real estate properties — but explicitly excludes purchase, sale, and promotion of real estate in Switzerland.

14.3 Samy's Latest Response (March 5, 2026)

Samy removed the real estate intermediation from the articles and requisition. He warns that even with the exclusion, the commercial register **may still require a LFAIE attestation** given the remaining real estate-related activities (administration, rental, maintenance). He asks Pascal to confirm whether he wants to remove ALL real estate activities or maintain the current revised scope.

14.4 Impact on Platform

The property management vertical (Section 2.2) depends on the final approved company purpose. If the Geneva register accepts the current scope, property management services (Airbnb management, rental intermediation, maintenance) can proceed as planned. If a LFAIE attestation is required, either the attestation must be obtained (CHF 500 + docs) or all real estate activities must be removed from the company purpose.

Date	Event
Feb 12, 2026	Order placed with Startups.ch
Mar 2, 2026	Samy flags LFAIE requirement for real estate activities
Mar 4, 2026	Pascal decides to remove property ownership, keep services

Date	Event
Mar 5, 2026	Samy updates articles; warns register may still require LFAIE
Pending	Pascal to confirm final scope; registration to proceed

15. Security Configuration

Header	Value
X-Content-Type-Options	nosniff
X-Frame-Options	DENY
X-XSS-Protection	1; mode=block
Referrer-Policy	strict-origin-when-cross-origin
Permissions-Policy	camera=(), microphone=(), geolocation=()
HSTS	max-age=63072000; includeSubDomains; preload
Frame-ancestors	none

CORS: All `/api/*` routes allow cross-origin with standard methods. CSP restricts sources to self + Plausible + Google Fonts + Supabase + Stripe.

16. Deployment

Component	Platform	Notes
Frontend + API	Vercel (Hobby plan)	100 deploys/day shared
Database + Auth + Edge	Supabase	rhoxismvcalqppbnndew, West EU
Domain	Infomaniak	swissperiences.ch, through 2029

Dev commands: `vercel dev` (full stack on `:3000`) | `npm run dev` (frontend only on `:8080`) | `npm run build` | `npm run lint`

Note: `npm run dev` does NOT serve `/api/*` routes. Use `vercel dev` for full functionality.

17. Changelog (v1.1 → v2.0)

Change	Details
Platform origin	Confirmed fully custom Vite/React/TS (not Lovable.dev)
Property management	Added as second business vertical (Geneva rentals)
Package pricing	Updated — solo starts at CHF 950 (Cinematic Weekend)
Grand Tour	Private chef replaced with 2 premium dining experiences
Winter Escape	4-day ski pass → 2-day; ski rental now add-on
10 destinations	New pages with GetYourGuide affiliate integration
Packages page	New /packages with tiered solo/couple/group pricing
Revenue engine	New revenue-engine.ts with commission calculations
Admin system	Added partners, inventory, tasks management
Guest enhance	New /enhance for Airbnb guest experience upsell
Journals	3 guest stories published with narrative design
Retreats	The Spring Intake (May 2026) with 2 tiers
Schema.org	Structured data corrected across all pages
Sustainability	New /sustainability route
Partnerships	New /partnerships for B2B
Member profiles	New /members/profile with editable fields
Link generator	New /members/links for admin guest proposals
Sarl incorporation	In progress via Startups.ch (Geneva)

Document version: 2.0 — March 5, 2026
